## Two Retirements By British Force In Balkans; Bulgars' Attacks Are Proving Serious

Bulgarians Show Increasing Strength and Are Well Supplied With Artillery Which keeps Up Constant Fire—Since Sunday British Lines Have been Principal Point of Attack—Problem of Attitude of Greek Government Is Becoming More Acute Daily.

(By Morning Bulletin Lease Wire)  
LONDON, Dec. 10.—Two successive retirements by the British forces in the Balkans was officially announced tonight. On December 7th the troops had withdrawn from the line of the Struma River, and on December 9th the line. The official statement was as follows:

"On December 7th the Bulgarian army, after a heavy bombardment, attack-

ed our troops with tanks and artillery. Our advanced trenches were captured by small parties of Bulgarians who were immediately driven out by the bugle."

"On the morning of December 9th the Bulgarians attacked again, and cover of darkness the troops were withdrawn to a new line. Reports as to our losses have not been received."

Later in the day British troops successfully repulsed all attacks,

and in the evening they were withdrawn to a new position in order to con-

form with the general idea of British Headquarters.

A despatch to Reuters' Telegram company, from British headquarters in Macedonia, said:

"The Bulgarian attacks during the past two or three days have been more numerous and more violent than ever before, and show an increasing strength and seem to be well supplied with artillery, which keeps up a constant fire."

Meanwhile the Bulgarians deluge their objective with shelling before attacking with infantry.

The Germans have engaged the principal share of their attention, and before the superior strength of the enemy our outposts are gradually falling back to the main position. Some hand to hand battles have been fought.

(The few Bulgarian attacks taken to date have no wish to fight against the entente allies, but are anxious to meet the Greeks, and wipe out old scores.)

"As the lines of the entente allies contract upon the Greek frontier the problem of the attitude of the Greek government becomes more and more acute."

The French withdrawal to Demir-Kapija was most orderly. They brought away with them the horses of their dead.

**Bulgaria Attacks Thrifov.**

London, Dec. 10.—Bulgarians, offered by Germans are fiercely attacking the allies in Macedonia, according to the latest news received by the correspondents who regards the situation as grave. The correspondent says that the British and French troops, and night, have been directed against the British and French troops at Kapti to Konstantin. Those assault, the despots add, have so far been successful, and the British and French are being continually reinforced and unsupported. Entente troops are engaged with the allies, gaining Strumita station towards the Greek frontier, while the Germans are advancing on Salonic.

London, Dec. 9.—Having arrived late to prevent the invasion of Serbia, the British and French forces in now retreating before the onslaughts of the Bulgarians. The German artillery and infantry, have been attacking both the British and the French, and have been pushing up advanced positions.

At Demir-Kapija, the British and the retirement is being carried out to the south of the town. The British and the retirement is being carried out to the

east of the town. The British and the retirement is being carried out to the west of the town in the meantime.

### VERY IMPORTANT DECISION HAS BEEN REACHED

PARIS, Dec. 9.—A decision of the greatest importance was reached at the fourth session of the national assembly, and it is understood. No announcement has been made thus far.

In view of yesterday's discussions, it is generally believed that the British representatives have reached an agreement as to the future conduct of military affairs in the Balkans.

### ALLIED ARMY OF HALF MILLION IN BALKANS

These Will be Available in Spring  
Says Military Critic of the  
Tempt

(By Morning Bulletin Lease Wire)

PARIS, Dec. 9.—An allied army of 500,000 men will easily be available in the Balkans in the spring, in the opinion of Gen. Jules Croix, the French critic of the military situation in the Balkans.

There are 100,000 troops of the allies in Salonic and 100,000 British at Demir-Kapija, could be sent to the Balkans in the opinion of Gen. Croix, who says that the French, who are now far from satisfactory, have been directed against the British and French troops at Kapti to Konstantin. Those assault, the despots add, have so far been successful, and the British and French are being continually reinforced and unsupported. Entente troops are engaged with the allies, gaining Strumita station towards the Greek frontier, while the Germans are advancing on Salonic.
